## Happy Jewish New Year

Everyone at Birmingham Jewish Community Care sends good wishes for a happy, peaceful, healthy and caring New Year.

Special congratulations to our Art Teacher Lesley Ware whose "Honey House" design was chosen by the charity Shaare Zedek UK for their fund raising New Year Cards

## BJCC Team scores 277 for 21, not out

No, not the latest cricket score, but the total number of years of loyal service given by 21 members of staff at BJCC who have been with us for 5 years or more.

Their achievement was recognised at a Long Service Award ceremony where each member of staff was presented with a certificate and personal gift.

Thank you to all our dedicated staff - old and new.

## Generation Gains

Increasing physical activity and reducing social isolation among over 65s are the objectives at the heart of the Aston Villa Foundation's Generation Gains programme.

Specialist staff run weekly sessions at locations across Birmingham with the aim of keeping the elderly moving in a safe and friendly environment.

Andrew Cohen House is included in the programme and enjoys sessions with three main aims: exercise, reminiscence and social interaction.

## Royal Birmingham Society of Artists

The RBSA Gallery received funding for projects with older

people. We were fortunate to hear professional sculptor Viv Astling talking about his work at the Lunch Club and printmaker Karoline Rerrie will run workshops with our Art Class and residents of ACH.
